

INSTRUCTIONS TO CONFIGURE YOUR SNAPSHOT MEMORY BOX

- To configure your snapshot memory box you will need to plug the memory box into a PC using the micro USB socket on the base of the box.
 - The box will appear as a USB Drive.
 - You can copy your audio file onto the box. The file must be in MP3 format and less than 7.5MB.
 - The name of the file is not important as it will play automatically
 - Do not edit or change the config.txt file on the device.
-
- You can print your photo and cut to the template provided in the Box.
 - (As a guide the photo is 75mm x 75mm)
 - Insert your photo under the clear acrylic plastic layer

Please email us at info@chroniclestories.co.uk if you have any questions.
